**PRACTICE PROFILE – WEST STREET SURGERY, CHIPPING NORTON**

We are a friendly rural practice in the Oxfordshire Cotswolds, with an excellent team. We are based in the small town of Chipping Norton and cover the surrounding villages to a radius of about 6 miles. We enjoy training very much and want to pass on our enthusiasm for general practice and the care of patients. We look after a wide social mix and a wide age range. We can also offer experience of a community hospital and our special interests include paediatrics, terminal care, women's health, care of the elderly and minor surgery.

We have a long tradition of training and all our team enjoy taking part in this. The doctors include two trainers – Cathy (who will be training the forthcoming registrar), and Jane. Our senior partner John is a former trainer and Jonathan, Wendy and Simon all have teaching experience. Our nurses, health visitors, counsellors and administrative staff also include several trained teachers who help teach the registrars. In addition we teach SHO's, medical students and nurses and for many years we have been running very popular monthly education meetings for the whole team. Our feedback from previous registrars and Practice Training inspections has been excellent. We are a patient centred and caring practice and our recent patient feedback was well above the 75<sup>th</sup> centile for good patient care. We also feel we are modern, organised practice with a focus on prevention and we scored highly (100%) in each of the last two years on our quality points. Many of our registrars don't want to leave and our team includes four previous registrars.

Some quotes from recent registrars include:

- “excellent teamwork”
- “excellent trainer”
- “a very popular and successful training practice”
- “I would strongly recommend this practice to any prospective Registrar”
- “extremely effective teaching style”
- “this teaching practice was extremely good and will form one of the lasting good memories of my life”
- “great cakes”

If you want to know more about us please consult our website @ [www.weststreetsurgery.co.uk](http://www.weststreetsurgery.co.uk)

To discuss our Registrar post, or to arrange a visit, please contact Cathy Elliott (Trainer) on 01608 642529, or Di Waller (Practice Manager) on 01608 648000. Do come and see us – we'd love to meet you!
